The American government is bending every effort to bring about a peaceful agreement between the Cabajal government and the Constitutionalists, and is endeavoring to harmonize all elements in Mexico, including the Zapata faction, with the progress of peace.

pata faction, with the progress of peace.

Reports from Vera Cruz, which said the Zapata forces were close enough to Mexico City to occupy it if they desired were borne out by official advices here. Lately, however, there has been an understanding between the Constitutionalists and Zapata forces relative to military operations, and no move is expected except 48, it may be sanctioned by General Carranza.

Information reached here to-day that the Constitutionalists were preparing a program of reforms which, it was believed, would satisfy the Zapata forces, and the prospects for a complete restoration of peace were considered bright by officials of the Washington government.

VILLA DEMONSTRATES
INDEPENDENT ATTITUDE
(By John W. Roberts.)
Juarca, July 18.—Both Carranzista
and Milaista officials in this city and
El Paso were startled this afternoon
with the announcement from General
Francisco Villa's headquarters that
Carlos Dominguez, formerly assistant
chief of staff to Venustiano Carranza,
has been appointed by General Villa
to the rank of colonel, and placed in
command of the "Briganda Trinidad
Rodriguez" to succeed General Trinidad Redriguez, who was killed in the
battle of Zacatecas.

iscuez' to succeed General Trini-Redriguez, who was killed in the e of Zacatocas, mingues had been extled from co by Senor Carranza following an inter Dominguez and with Car-c's chief of staff while the first was in Sonora, and had been pro-ced from entering so-called Vil-territory by orders from General

lists territory by orders from General Villa.

When Deminguez was deposed as assistant chief of staff to Carranza, the latter issued orders to all commanders of Constitutionalist armies that should Dominguez be found in Mexico he was to be submarrily executed for disobedience to orders and less majesty. Villa, it is said, blocked Carranza in the order, and gave his immigration sutherities and military officials a blanket order prohibiting Dominguez from entry to saw city in Mexico.

It was not until recently that General Villa rescinded his order and allowed Dominguez to come and go unhindered to and from Juarez, giving as his reason that Dominguez held the mones trading concession, and that it was imperative that he (Dominguez) transact business in Juarez.

Since—the—brigadier commanders extle from Carranza territory, he has been a staunch adherent to the Villistas, but it was not thought by Carranzistas nor Villistas that General Villa would so openly repudiate Carranza s action in so trivial a matter.

General Villa again demonstrated

caranzas a action in so trivial a matter.

General Villa again demonstrated his independent attitude toward Carranza to-day, when he notified all property-owners and mine and smelter-operators in Chihuahua, Durango, Zadatecas and Portions of Saltillo that all taxes were to be paid to his Secretary of the Treasury at once.

He informed them through a manifesto that should the taxes be paid to Carranza, they would be invalid and subject to second collection by the Villista tax collectors. Carranzistas in El Paso are at a loss to account for General Villa's open repudiation of Carranza, and express the belief very freely that Villa will not recognize Carranza, in Mexico City, unless all of Villa's pet hobbies and plans are carried out to the letter by the Carranza government. Villa also insists that General Felipe Angeles not only must be relustated to the good graces of Carranza, but now demands, it is asserted that Angeles we mand as Minister of War in the Carranza Cabinet. Just what result General Villa's attitude will have on the carranza chabinet. Just what result General Villa's attitude will have on tarranza and his national policies is only a matter of confecture but Carranzistas freely express the Jedlef that the apparent break will do more to bring discord flan anything the "Colerado" or filibusterers might do.

The galleries of both houses are filed with armed partisans, who applaud, deride, denounce or hiss the utterances of the speakers.

The fact that the presidential and parliamentary elections, the second in the history of the new republic, are pending has lately brought the struggle for power to a high pitch of ex-citement. The decree of the govern-ment fixing the date of elections has not yet been issued, but it is expected

ment fixing the date of elections has not yet been issued, but it is expected that they will be held the latter part of August or early in September. Dr. Manoel Arrivaga, the first President under the new Constitution, cannot be a candidate for re-election.

The election of the President is made by the two houses of Parliament.

The Democrats, led by Dr. Alfonso Costa, have a majority in the present House of Deputies. A typical scene was witnessed there recently when the Revolutionists, whose chief is Dr. Almeida, accused the Democratic ministry of conniving at gross frauds in connection with a concession to Antonio Maria de Silva, formerly Minister of Public Works, to exploit the water power of Rodman Falls, which engineers consider adequate to supply power and light to Lisbon and all of its surrounding provinces. When the president of the chamber ordered the police to clear them out, the factionists in the galleries united against the officers, and, revolvers in hand, massed at each entrance to the house, defying the police to lay hands on any one. As a result of parleys, the police agreed to make no arrests provided the spectators agreed to leave quietly, as they did.

In the meantime the Deputies were using canes and fists upon one an-other. Dr. Bernardino Machado, the other. Dr. Bernardino Machado, the Premier, who is conspicuous for his refinement and culture, ran from group to group begging the members, in the name of the republic to desist. Pure blood enables the stomach, liver

Pure blood enables the stomach, liver and other digestive organs to do their work properly. Without it they are sluggish, there is loss of appetite, sometimes faintness, a deranged state of the intestines, and, in general, all the symptoms of dyspepsia.

Pure blood is required by every organ of the body for the proper performance of its functions.

Hood's Sarsaparilla makes pure blood, and this is why it is so successful in the treatment of so many diseases and aliments. It acts directly on the blood, ridding it of scrofulous and other humors.
